Sam Baloyi
Software Engineer
South Africa

Summary

As a software engineer, I have a strong foundation in information technology and extensive experience in a range of programming languages, including Java, Python, and JavaScript. I am a quick learner and thrive in fast-paced, collaborative environments.

In the past, I have had the opportunity to work on a variety of exciting projects. I am passionate about using technology to solve complex problems and improve people's lives, and I take pride in my ability to write clean, efficient code.

In addition to my technical skills, I am a strong time manager and highly curious. I am always looking for opportunities to learn more about the industry and improve my abilities as a software engineer. I am a team player and enjoy collaborating with others to find creative solutions to challenges. Overall, I am excited to continue growing as a software engineer and to make meaningful contributions to the projects and teams I am a part of.

Experience

FoondaMate
Junior Software Engineer
March 2022 - June 2023 (1 year 4 months)

My key responsibilities were to build and maintain FoondaMate's mobile applications, web applications, and private Javascript packages (React, React-Native, TypeScript).

WeThinkCode_
2 years

Software Engineering Student
August 2020 - July 2022 (2 years)
City of Johannesburg, Gauteng, South Africa

Content Team Lead

October 2020 - August 2021 (11 months)
City of Johannesburg, Gauteng, South Africa

Worked with senior management to develop and implement new social media efforts and new business social strategies.

My responsibility as a team lead was to ensure that the team adheres to all necessary guidelines and standards.

BBD
Software Engineer
May 2021 - August 2021 (4 months)
City of Johannesburg, Gauteng, South Africa

In this role, I was part of the a team that was tasked with creating a case management web application for South African Revenue Services. Tech stacks I worked with were Python and Angular.
